Encl: (1) Electronic Distribution of Doctrinal Publications  
(2) Maintenance, Requisitioning, and Distribution of Doctrinal Publications  
(3) Current Doctrinal Publications  
(4) Publications Under Development/Pending Review  
(5) Canceled Doctrinal Publications

1. Situation. As directed by reference (a), this Bulletin provides the annual update of current Marine Corps doctrinal and associated publications.

2. Mission. Enclosures (1) through (5) provide procedures for distribution and maintenance and the status of doctrinal publications within the Marine Corps Doctrinal Publications Program to include Service, multi-Service, joint, multinational, and associated publications.

3. Execution

a. Commander's Intent and Concept of Operations

(1) Commander's Intent

(a) Reference (a) designates the CG MCCDC as the Commandant's executive agent for the development, review, maintenance, and publication of Marine Corps Service doctrine, and for Marine Corps participation in naval, joint, and multinational doctrine development. Further, it assigns responsibilities and identifies relationships among the various Marine Corps organizations involved in the doctrine development process.

(b) Reference (b) provides guidance for the implementation of Marine Corps Doctrinal Proponency. Proponency entails the assignment of

responsibility for the preparation, review, and periodic maintenance of a doctrinal publication by selected agencies from the Marine Corps supporting establishment. The proponenty assignments are reviewed annually and updated in Marine Corps Bulletin 5603.

(2) Concept of Operations

(a) Marine Corps Doctrinal Publications Architecture. The Marine Corps publication hierarchy is comprised of the Marine Corps Service doctrinal publications, dual-designated publications and multi-Service designated publications.

(1) Marine Corps Service Doctrine. Marine Corps Service doctrine consists of publications created to describe the warfighting doctrine, tactics, techniques, and procedures (TTP) of the Marine Corps. Doctrine provides the fundamental principals by which our forces guide their actions in support of national objectives. TTP provide the detailed description of how our forces perform assigned tasks. The Marine Corps doctrinal publications designation and numbering method is established by reference (b). There are a few remaining publication designations of Fleet Marine Force Manuals (FMFM), Fleet Marine Force Reference Publications (FMFRP), and Operational Handbooks (OH) that are being phased out as publications are reviewed and rewritten. Marine Corps doctrinal publications published after 1 December 1995 are designated as one of the following:

(a) Marine Corps Doctrinal Publications (MCDP). MCDP's are higher order doctrine publications containing the fundamental and enduring beliefs of warfighting (*Capstone* publications - MCDP 1, 1-1, 1-2, and 1-3) and the guiding doctrine for the conduct of major warfighting activities (*Keystone* publications - MCDP 1-0, 2, 3, 4, 5, and 6).

(b) Marine Corps Warfighting Publications (MCWP). MCWP's have a narrower focus detailing TTP used in the prosecution of war or other assigned tasks.

(c) Marine Corps Reference Publications (MCRP). MCRP's contain general reference material that are more specific/detailed than the MCWP's. MCRP's are given the same number as the parent MCWP with an alpha designator added to the number.

(2) Dual-Designated; Multi-Service; and Air, Land, Sea Application (ALSA) Center Publications

(a) Each military Service is authorized to use other Services' doctrinal publications and to effect necessary modifications to align each with their own mission, roles, and functions. These publications, identified as dual-designated or multi-Service publications, contain TTP to which two or more of the Services have subscribed. They are ratified by and bear the designation of each participating military Service. Dual-designated or multi-Service publications ratified by the Marine Corps are designated as MCWP's or MCRP's, as appropriate, and have the same authority and status as other Marine Corps Warfighting or Reference Publications.

(b) The ALSA Center is chartered by the four services' doctrine commands and tasked to rapidly develop publications that fill

interoperability voids between services, joint forces, and staffs. In most cases, these publications take on the form of multi-service TTP (MTTP) and address operational details often not included in our joint publications. Once signed by CG MCCDC or designated representative, ALSA publications are given an appropriate MCWP or MCRP designator and placed within the Marine Corps' publication hierarchy. As with non-ALSA dual-designated publications, these MTTP's have the same authority and status as our other Marine Corps doctrine publications. Although developed by the ALSA Center, ALSA publications must be approved/signed by the individual service doctrine commands.

(3) Naval Doctrine Publications. These publications provide the fundamental concepts that govern the employment of naval forces at all levels. They form the seamless fusion of Navy and Marine Corps doctrine and form the Naval characteristic of Joint operations. They are signed by the Commandant of the Marine Corps and the Chief of Naval Operations and are part of the Marine Corps hierarchy.

(4) Publication Status. The current MCDP's, MCWP's, and MCRP's are listed in enclosure (3). All current FMFM's, FMFRP's, and OH's listed remain in effect until superseded. Enclosure (4) lists publications currently under development. Enclosure (5) lists publications that have been canceled due to replacement, supersession, or obsolescence.

(b) Other Doctrinal Publications

(1) Joint Publications. These are doctrinal manuals developed and promulgated as a distinct family of publications by the Joint Chiefs of Staff per references (c) and (d). Joint publications and Joint TTP's (JTTP) provide guidelines for the coordinated employment of forces of two or more Military Departments conducting a joint operation.

(2) Joint Munitions Effectiveness Manuals (JMEM). JMEM's provide in-depth descriptions of specific weapon system characteristics and effectiveness. JMEM's are reference documents detailing friendly weapon system capabilities and limitations, and are primarily used for weaponeering. JMEM's are designated as FMFRP's or MCRP's but are not posted on the doctrine hierarchy. Current JMEM publications are listed in the semiannual Joint Service Index for Specialized Technical Handbooks (JTCG/ME publication 61JTCG/ME-1-1).

(3) Ratified Allied Publications. Ratified allied publications contain doctrine and TTP to which North Atlantic Treaty Organization (NATO) member nations have subscribed. When ratified by the United States, these publications are the senior doctrinal guide for forces conducting NATO operations. Additional information on these publications is contained in references (e), (f), and (g). Reference (h) provides information regarding standard NATO agreements.

(c) Other Service Publications. The Army, Navy, and Air Force have produced a large number of publications detailing TTP's for the many aspects of warfighting. Though not Marine Corps doctrine, these publications provide a wealth of information, and can be referenced to supplement Marine Corps TTP. See enclosures (1) and (2) for information on how to find and order other service publications.

MCBul 5600  
DEC 11 2003

b. Coordinating Instructions. Recommendations for new doctrinal publications or modifications to existing publications should be submitted to the CG MCCDC at the following address:

COMMANDING GENERAL  
DOCTRINE DIVISION (C 42)  
MARINE CORPS COMBAT DEVELOPMENT COMMAND  
3300 RUSSELL ROAD SUITE 318A  
QUANTICO VA 22134-5021

4. Administration and Logistics. Publications can be obtained in either paper copy or electronic form. Enclosure (1) outlines the procedures for procuring electronic copies of available Marine Corps and other doctrinal publications. Enclosure (2) deals with publications controlled through the Marine Corps Publications Distribution System, and provides guidance and instructions on ordering and maintaining paper copy doctrinal publications.

5. Command and Signal

a. Signal. This Bulletin is effective the date signed.

b. Command. This Marine Corps Bulletin is applicable to the Marine Corps Total Force.

6. Cancellation Contingency. This Bulletin is canceled upon receipt of the next Marine Corps Doctrinal Publications Status Bulletin.

  
EDWARD HANLON, JR.  
By direction

DISTRIBUTION: PCN

Copy to: 7000110 (55)  
7000093/8145005 (2)  
7000099, 144/8145001 (1)

ELECTRONIC DISTRIBUTION OF DOCTRINAL PUBLICATIONS

1. Purpose. To provide information on the electronic distribution of available doctrinal publications.

2. Information. In order to ensure rapid access and distribution of doctrinal publications and to increase the dialog between the producers and consumers of doctrine, MCCDC Doctrine Division provides electronic copies of current and draft doctrinal publications. While paper copy distribution of doctrinal pubs will continue to be the norm for the foreseeable future, the Doctrine Division Internet Web site has been developed to supplement and enhance the Marine Corps Publications Distribution System. Access to joint, multi-Service, and multinational pubs is also available through our Web sites and compact disk (CD).

3. Doctrine Division Internet Web Sites. Doctrine Division has developed a Non-Secure Internet Protocol Router Network (NIPRNET) Web site for unclassified doctrinal publications and a SECRET Internet Protocol Router Network (SIPRNET) site for classified doctrinal publications. The Web address for these sites are: <https://www.doctrine.usmc.mil> (NIPRNET) and <http://www.doctrine.mccdc.usmc.smil.mil> (SIPRNET).

a. The Doctrine Division Internet Web site provides access to approved Marine Corps doctrine, warfighting, and reference publications, as well as password-protected draft publications for review and comment. The site also includes current updates to the enclosures in this Bulletin and information on key doctrinal issues, developing doctrine, NATO standardization agreements (STANAG), Quadripartite Standardization Agreements (QSTAG), Naval Doctrinal Publications, and links to other doctrine-related military Internet sites.

b. Publications are in Portable Document Format (PDF) and may be viewed on line or saved on a local hard drive using Adobe Acrobat Reader. The Adobe Acrobat Reader is free and can be obtained from the Doctrine Division Web site or the Adobe Web site (<http://www.adobe.com>). Some draft publications are compressed into a ZIP file and may be downloaded to a local hard drive and decompressed using an UNZIP file application.

c. As new doctrinal publications are approved, they are posted on the Doctrine Division Web site. Older publications are being added as they are converted into the proper electronic format. Questions concerning the electronic distribution of doctrinal publications should be addressed to the Doctrine Division Information Systems Coordinator (ISC) at DSN 278-6231; Com1 (703) 784-6231. The Doctrine Division ISC can also be contacted by e-mail through the Doctrine Division Web site.

4. Doctrinal-Related Military Internet Sites

- a. Joint Publications - <http://www.dtic.mil/doctrine/>
- b. Air Land Sea Application Center Publication - <https://lad.dtic.mil/alsa/>
- c. Air Force Publications - <http://www.e-publishing.af.mil>
- d. Army Publications - <http://www.adtdl.army.mil>
- e. Navy Publications - <http://www.nwdc.navy.mil/Library/Library.asp>

DEC 11 2003

Maintenance, Requisitioning, and Distribution  
of Doctrinal Publications

**I. INTRODUCTION**

1. Doctrinal publications facilitate mission accomplishment, therefore commanders must take a personal interest in publications ordering and maintenance. Marine Corps units, both Regular and Reserve, shall maintain doctrinal publications appropriate to the mission of the organization.
2. Page 5 of this enclosure contains a table that depicts a consolidated listing of stock points, method of requisitioning, and references for all publications identified throughout this Bulletin. This table complements the amplifying instructions that follow and is intended to be used as a quick reference guide.
3. Instructions contained in this enclosure are written with the assumption that Marine Corps users have at least a working knowledge of maintenance and requisitioning procedures for doctrinal publications within the Marine Corps Publications Distribution System (MCPDS), to include ordering of classified publications. The MCPDS Field User System is an on-line interactive system that facilitates continuing distribution of changes and revisions for basic publications held by a command or activity that has been assigned an Individual Activity Code (IAC). Traditionally, users of MCPDS reside in the Adjutant, S-1, or Administrative Section of an activity. The MCPDS Users Manual (UM-MCPDS 5605 [Publication Control Number (PCN): 187 300000 00]) contains detailed instructions for establishing access to MCPDS and also provides commanders specific information for maintenance and ordering procedures.

**II. ESTABLISHING PUBLICATION REQUIREMENTS**

1. Publication Listing (PL). The PL is an electronic display in MCPDS which lists every publication which is to be distributed automatically to a unit.
  - a. Every unit that receives publications has an IAC and PL. Commanders for each unit must determine publications requirements because every unit is unique. This uniqueness is derived from, among other things, mission, geographic location, and experience of the members of the unit. Since the missions and the experience level of personnel change there can be no fixed unit requirement for publications. Publication requirements should be realistic and based on mission-essential criteria.
  - b. Before a change or revision of a publication is printed, the number of copies the Marine Corps needs is determined. This total is determined by adding all the inventories for a particular publication in all unit PL's and then adding 30 percent more for stock. Changes or revisions are then distributed automatically to units possessing that doctrinal publication on their PL in the numbers indicated. Commanders must continue to make their needs known by periodically reviewing and updating the unit PL.
  - c. Units should take a methodical approach to ordering doctrinal publications. Every unit must also develop an efficient system for ordering and replacing publications. Compared to the cost of equipment and training, manuals are very inexpensive.

ENCLOSURE (2)

2. Maintaining a PL

a. Supervision is the most important action taken in maintaining and revising a PL and ordering publications. PL managers should aggressively review and follow-up on the status of all publication requests, as well as closely track unit requirements for additional or replacement publications.

b. Commanders enjoy significant latitude in adjusting total publication quantities listed on their PL. The number of doctrinal publications identified should reflect the quantity the commander considers **mission-essential**.

c. The commander (or designated agent) accesses the PL via the Marine Corps data system to report the unit's requirements for mission-essential doctrinal publications.

III. REQUISITIONING PROCEDURES

1. MCPDS On-Line Doctrinal Publications Requisitioning. MCPDS is a system that provides support of the **initial issuance** of publications by sponsors and allows electronic management of the activity's requirements for publications.

a. Marine Corps Publications. Most Marine Corps publications are stocked at the Marine Corps Logistics Base (MCLB), Albany, GA, and can be ordered electronically by PCN through the MCPDS. Publications listed in enclosure (3) of this Bulletin that have PCN's can be ordered through MCPDS. MCPDS users will submit requests for publications not stocked in the MCPDS in standard Naval letter format to the CMC (ARD) and include the following information:

(1) Complete identification of the publication(s) including number, title, and stock number (if known), and the source document in which identified.

(2) Equipment Item Designator Number, if applicable.

(3) Source of supply, if known.

(4) Justification for the publication.

(5) Point of contact, telephone/FAX numbers, IAC, E-Mail address, and whether the requirement is for one-time issue or continuing distribution.

Note: MCLB, Albany, GA has a USMC publications website (<http://pubs.ala.usmc.mil/FRONT.htm>) where FMFM's, FMFRP's, and OH's can be viewed and downloaded in PDF format. Access to this website can only be obtained on a .mil land area network connection.

b. Classified Marine Corps Publications

(1) Marine Corps activities with a requirement for classified Marine Corps publications will requisition by PCN through the MCPDS.

(2) Services outside of the Marine Corps with a requirement for classified Marine Corps publications will submit a written request to CMC (ARDE) in Standard Naval Letter format to include the following:

(a) Statement attesting that classified storage capabilities exist.

ENCLOSURE (2)

DEC 11 2003

- (b) Publication short title and subject, if known.
- (c) Number of copies required, with justification.
- (d) Point of contact to include name and telephone number.
- (e) Complete military mailing address.

(3) CMC (ARDE) will coordinate with the sponsoring activity of the classified publication prior to authorizing release to the requesting unit. For additional information, contact CMC (ARDE) at DSN 224-2580, Coml (703) 614-2580, extension 148 or 150.

c. Joint and Multi-Service Publications. Most joint and multi-Service publications are stocked at the MCLB, Albany, GA, and can be ordered electronically by PCN's through the MCPDS. Multi-Service publications and joint publications identified on the Doctrine homepage can be ordered through the MCPDS.

d. Army Publications. Army publications that are distributed, stocked, and issued through the Marine Corps publications distribution system are stocked in MCLB, Albany, GA, and can be ordered electronically by PCN's through the MCPDS. Army FM's identified on the Doctrine homepage can be ordered through the MCPDS. MCPDS users will submit requests for Army publications which are not stocked in Albany, GA, in the same manner as prescribed in subparagraphs III.1a(1)-(5) above.

2. Activities outside of the Marine Corps. Activities outside of the Marine Corps that do not have access to the MCPDS will requisition doctrinal publications (regardless of type) in the following manner:

a. Submit a written request to CMC (ARDE) in Standard Naval Letter format via mail or FAX DSN 224-1463, Coml (703) 614-1463.

b. Requests should include the publication short title, subject, number of copies required, point of contact (name, grade, phone, and FAX numbers), and a complete mailing address where publications should be mailed.

c. Additional ordering information can be obtained from CMC (ARDE) at DSN 224-2580, Coml (703) 614-2580, extension 148 or 150.

### 3. Special Categories

a. Naval Doctrine Publications (NDP). NDP's identified in enclosure (3) may be requisitioned by PCN through the MCPDS. Electronic versions of these publications are also accessible from the Doctrine Division website.

b. Tactical Memorandums (TACMEMO) and Naval Warfare Publications (NWP). Current TACMEMO's and NWP's are identified and contained in the Navy Warfare Electronic Library (NWEL) CD. Requisitioning procedures for TACMEMO's, NWP's, and the NWEL are contained in OPNAVINST 5605.19.

c. Operational Handbooks (OH)

(1) OH's identified in enclosure (3) are being phased out and replaced by MCWP's and MCRP's, therefore copies are not available for distribution.

ENCLOSURE (2)

MCBul 5600

DEC 11 2003

(2) For additional information contact the Support Branch, Doctrine Division, MCCDC, at DSN 278-6230/6233, Com1 (703) 784-6230/6233.

d. Joint Munitions Effectiveness Manuals (JMEM). JMEM's are not stocked in the Marine Corps supply system. They are available to the Marine Corps by ordering from the Joint Technical Coordinating Group for Munitions Effectiveness (JTTCG/ME) publications manager, OCALC/MMDUD, Tinker AFB, OK 73145-5979. To contact the publications manager by telephone, call DSN 336-5468/5568/2707, commercial (405) 736-xxxx.
